

HARNES SR JÄMTLAND

ART. NO. 962051 S/M/L, 962052 XL/XXL

Well balanced and easily adjustable fall arrest harness that has good fit for most body types and offers great mobility.

- Two fall arrest attachment points (EN 361), front and back.
- Very strong construction while being lightweight and compact.
- Comfortable also for women and allows space for the chest.
- Fall indicators with clear color coding.
- Two loops for equipment attachment, each up to 5 kg.
- Custom branding available with own colors and logos.
- If a fall occurs when using the front attachment point, the buttocks bear more of the load than the groin, which provides higher comfort and a better outcome during rescue.
- If a fall occurs when using the rear attachment point, the harness is designed to minimize the risk of negatively affecting breathing and blood circulation.
- Accessories: Padding, Trauma straps, Pockets, Tool Lanyards.
